**TATA**  
mutual fund

**TATA**

## INDIA PHARMA & HEALTHCARE FUND

(An open-ended equity scheme investing in Pharma & Healthcare Services Sector)

(SCHEME CODE - TATA/O/E/SEC/15/10/0027)

This product is suitable for investors who are seeking\*:

- Long Term Capital Appreciation.
- Investment in equity/equity related instruments of the companies in the Pharma & Healthcare sector in India.

**\*Investors should consult their financial advisors if in doubt about whether the product is suitable for them.**

### Scheme Riskometer

### Benchmark Riskometer

It may be noted that risk-o-meter specified above is based on internal assessment. The same shall be updated as per provision no. 17.4.1.i of SEBI Master Circular on Mutual Fund dated 27.06.2024, on Product labelling in mutual fund schemes on ongoing basis.

Units were offered at Rs. 10/- each for cash during the New Fund Offer & Continuous offer for units at NAV based prices, subject to applicable load.

<b>New Fund Offer Opened On</b>	<b>04.12.2015</b>
<b>New Fund Offer Closed On</b>	<b>18.12.2015</b>
<b>Scheme Re-opened On</b>	<b>29.12.2015</b>

Name of Mutual Fund	Name of Trustee Company	Name of Asset Management Company
<b>Tata Mutual Fund</b> 1903, B-Wing, Parinee Crescenzo, G-Block, BKC, Bandra (East), Mumbai - 400 051	<b>Tata Trustee Co. Pvt. Ltd.</b> 1903, B-Wing, Parinee Crescenzo, G-Block, BKC, Bandra (East), Mumbai - 400 051 <b>CIN: U65991-MH-1995-PTC-087722</b>	<b>Tata Asset Management Pvt. Ltd.</b> 1903, B-Wing, Parinee Crescenzo, G-Block, BKC, Bandra (East), Mumbai - 400 051 <b>CIN: U65990-MH-1994-PTC-077090</b>

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. **For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website [www.tatamutualfund.com](http://www.tatamutualfund.com)**

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated 30 May 2025

## INVESTMENT OBJECTIVE

The investment objective of the scheme is to seek long term capital appreciation by investing atleast 80% of it's net assets in equity/equity related instruments of the companies in the pharma & healthcare sectors in India.

However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.

## ASSET ALLOCATION PATTERN OF THE SCHEME

Under normal circumstances, the asset allocation of the Scheme will be as follows:

Instruments	Indicative allocations (% of net assets)		Risk Profile
	Minimum	Maximum	
Equity & equity related instruments of companies in the Pharma & Healthcare Sectors <sup>^</sup>	80	100	High
Other Equity/Equity related instruments	0	20	High
Debt and Money Market Instruments	0	20	Low to Medium

<sup>^</sup> As classified by AMFI and includes changes made there to by AMFI from time to time. As intimated by NSE/AMFI, effective from 31<sup>st</sup> March 2022, Pharma Sector & Healthcare Services Sector are reclassified as Healthcare Sector.

The Scheme will comply with all the applicable circulars issued by SEBI as regard to derivatives viz. provision 7.5 of SEBI Master Circular on Mutual Funds dated June 27, 2024, provision 12.25 of SEBI Master Circular on Mutual Funds dated June 27, 2024. The cumulative gross exposure to equity, equity related instruments, debt, money market instruments and derivatives shall not exceed 100% of the net assets of the scheme. The exposure to derivatives will not exceed 50% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash equivalent means Government Securities, T-Bills & Repo on Government Securities.

Due to market conditions, the AMC may invest beyond the range set out above. Such deviations shall normally be for a short term purpose only for defensive considerations and such deviation shall be subjected to 30 days rebalancing period.

**Indicative Table (Actual instrument / percentages may vary subject to applicable SEBI circulars):**

Sr. No.	Type of Instrument	Percentage of Exposure	SEBI Master Circular on Mutual Fund dated June 27, 2024 Reference
1	Securities Lending and short selling	Stock lending up to 20% of net assets. Not more than 5% of the net assets of the scheme will be deployed with any single intermediary in accordance with Securities Lending Scheme, 1997, and as per provision no. 12.11 of SEBI Master Circular on Mutual Fund dated June 27, 2024.  The Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.	Provision no. 12.11
2	Equity Derivatives for non-hedging Purposes	The scheme net assets will have a maximum derivative net position of 50% of the net assets of the scheme.	Provision no. 12.25
3	Securitized Debt	The scheme does not seek to invest in securitized debt.	Provision no. 12.15
4	Overseas Securities	The scheme does not seek to invest in foreign securities.	Provision no.12.19
5	# RelTS and InVITS	Will not invest	Provision no. 12.21 & clause no. 13 of Seventh Schedule of SEBI (MF) Regulation, 1996.

Sr. No.	Type of Instrument	Percentage of Exposure	SEBI Master Circular on Mutual Fund dated June 27, 2024 Reference
6	AT1 and AT2 Bonds	The scheme will not invest in AT1 and AT2 Bonds	Provision no. 12.2
7	Any other instrument a) Repo / reverse repo in corporate debt securities b) Credit Default Swaps (CDS) c) Covered Call options	a) The Scheme does not seek to participate in repo/ reverse repo in corporate debt securities b) The Scheme does not seek to participate in credit default swaps. c) The scheme may write call options under covered call strategy, the total notional value of call options written by the scheme will be within 15% of the total market value of equity shares held in that scheme	a) Provision no. 12.18 b) Provision no. 12.28 c) Provision no. 12.25.8

## Change in Investment Pattern/ Portfolio Rebalancing

Pursuant to provision 1.14.1.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024, the tentative portfolio break-up mentioned above with minimum and maximum asset allocation can be altered for a short-term period on defensive considerations. In this event where the asset allocation falling outside the limits specified in the asset allocation table due to defensive considerations, the Scheme will rebalance the portfolio within thirty (30) calendar days.

Pursuant to provision 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, in the event where the asset allocation is falling outside the limits specified in the asset allocation table due to passive breaches (occurrence of instances not arising out of omission and commission of AMC), the Scheme will rebalance the portfolio within thirty (30) business days. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme within the stipulated period of thirty (30) business days, justification in writing including details of efforts taken to rebalance the portfolio for the same shall be provided to the Investment Committee. The Investment Committee shall then decide on the course of action and if they so desires can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. Further, compliances relating to disclosures etc. shall be adhered in line with the said circular.

In case the portfolio of schemes is not rebalanced within the mandated plus extended timelines, AMCs shall:

- not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- not to levy exit load, if any, on the investors exiting such scheme.

AMC shall adhere to SEBI guidelines regarding the rebalancing of asset allocation norms as stipulated from time to time.

## INVESTMENT STRATEGY

The scheme seeks to achieve its investment objective by investing atleast 80% of it's net assets in equity /equity related instruments of companies in Pharma and Healthcare Sector.

Fund Manager will follow the AMFI sector classification for deciding the investment universe for the scheme.

The scheme may also invest some portion of the investible funds in equity / equity related instruments of other companies.

The Scheme may also invest some portion of the investible funds in debt and money market instruments.

The stocks under the scheme will be selected after rigorous fundamental research which includes parameters like management competitiveness, business competitiveness, corporate governance, growth prospects, past track record etc.

## Trading in Derivatives by the Scheme

Subject to SEBI (Mutual Funds) Regulations, 1996, the Scheme(s) may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. In accordance with the guidelines issued by the SEBI, exposure to derivative instruments will be restricted to the limit as specified along with the asset allocation pattern of the respective scheme(s).

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are

Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc.

The Scheme may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. The Scheme may purchase call and put options in securities in which it invests and on securities indices based on securities in which the scheme invests. Through the purchase and sale of futures contracts and purchase of related options on those contracts the Scheme would seek to hedge against a decline in securities owned by the Scheme or an increase in the prices of securities which the Scheme plans to purchase. The Scheme would sell futures contracts on securities indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio. When this type of hedging is successful, the futures contract increase in value while the Scheme's investment portfolio declines in value and thereby keep the Scheme's net asset value from declining as much as it otherwise would. Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Scheme would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase.

#### Writing of call options under covered call strategy

The scheme may write call options under covered call strategy subject to conditions specified by SEBI which includes the following:

- 1) Call option writing under a covered call strategy is allowed for constituent stocks of NIFTY 50 and BSE SENSEX.
- 2) The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.
- 3) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrance.
- 4) In no case, the scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
- 5) The total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
- 6) The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

#### Benefit of Writing of Call Option Under a Covered call Strategy

- a. Holders with Long term view on the stock can write options and reduce the portfolio costs.
- b. Writing can also act as a good alternative for playing relative outperformance for stocks held in portfolios within same sector.
- c. Stocks held in the portfolio can be effectively hedged in extreme volatility in the market

**Example: Please note that below mentioned examples are purely for illustration purpose only and actual exposure may vary to a greater extend in line with the regulatory directives.**

Subject to SEBI (Mutual Funds) Regulations, 1996, The Scheme may invest in Derivative Instruments to the extent permitted under provision 7.5 of SEBI Master Circular on Mutual Funds dated June 27, 2024, provision 12.25 of SEBI Master Circular on Mutual Funds dated June 27, 2024.

For other option contracts, the total exposure related to option premium paid will not exceed 20% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

Exposure due to hedging positions shall not be included in the above mentioned limits subject to the following:

1. Hedging positions are the derivatives positions that reduce possible losses on an existing position in securities and till existing position remains.
2. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall have to be added and treated under the limits mentioned above.
3. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
4. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.

Mutual funds are allowed to hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

(Portfolio Modified Duration\*Market Value of the Portfolio)

(Futures Modified Duration\*Futures Price/PAR)

The Mutual Fund may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions shall be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the scheme.

#### Definition of Exposure in case of Derivative Positions

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price*Lot Size*Number of Contracts
Short Future	Futures Price*Lot Size* Number of Contracts
Option Bought	Option Premium Paid*Lot Size* Number of Contracts.

#### Position Limits for Mutual Fund and its scheme

Position limit for Index Options and Index Futures contracts	
Index Options Contract*	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index options contracts, whichever is higher.
Index Futures Contract**	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index futures contracts, whichever is higher.

\* This limit would be applicable on open positions in all options contracts on a particular underlying index.

\*\* This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit for hedging	
In addition to the position limits as mentioned above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:	Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
	Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.
Position limit for Stock Options and Stock Futures contracts	
The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).	
This limit would be applicable on aggregate open positions in all futures and all option contracts on a particular underlying stock.	

#### Position limit for each scheme of a Mutual Fund

The scheme-wise position limit requirements shall be:

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
  - 1% of the free float market capitalization (in terms of number of shares). Or
  - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts)
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
3. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

#### Position Limits for Interest Rate Future Contracts:

**Scheme Level:** The gross open positions across all contracts shall not exceed 3 % of the total open interest or INR 200 crores- whichever is higher.

**Mutual Fund:** The gross open positions across all contracts shall not exceed 10 % of the total open interest or INR 600 crores- whichever is higher.

#### Derivative Instruments & Related Examples:

##### Futures:

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific

future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. Currently, futures contracts have a maximum expiration cycle of 3-months. A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

**Example:**

Index Future	
Assume, 1-month Nifty Future price on day 1:	10110
Scheme Buys	100 Future Contracts
(1 lot =Nominal Value equivalent to 75 units of the underlying index)	
<b>Scenario 1</b>	
On the date of Settlement, the future price (closing spot price of the index)	10200
<b>Profit for the scheme (10200-10110) *100*75</b>	450000
<b>Scenario 2</b>	
On the date of Settlement, the future price (closing spot price of the index)	10050
<b>Loss for the scheme (10050-10110) *100*75</b>	-300000

**Risks associated with Future Contracts:** Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. Additional risks could be on account of illiquidity and potential mispricing of the futures.

**Options:**

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

**Example:**

Call Option	
Say, Scheme buys 1 lot of Nifty Index	50 Units
Spot price	10000
Strike price	10100
Premium	100
Total amount paid as premium (Rs.) (100X50)	Rs.5000
<b>Scenario 1: The Nifty Index goes up (i.e Nifty Spot)</b>	10250
<b>Scheme has reversed the position before expiry of the contract</b>	
Current Premium at the time of reversal	200
Net Gain Rs. (200-100)	100
Total gain on 1 lot of Nifty (50 units) Rs.(50x100)	Rs.5000
<b>Scheme has reversed the position ( i.e Nifty Option) at expiry</b>	
Nifty Spot on expiry	10275
Premium Paid(Rs.)	100
Exercise price	10100
Receivables on Exercise (10275-10100)	175
Total gain (Rs.) (175 -100) *50	Rs.3750
<b>Scenario 2: The Nifty index moves to the level below 10100</b>	
<b>Scheme does not gain anything but the loss to the scheme (limited to the actual premium paid)</b>	Rs. 5000

Put Option	
Say, Scheme buys 1 lot of Nifty Index	50 Units
Spot Price	10000
Strike Price	9450
Premium	50
Total Amount Paid by the Scheme (50*50)	2500
<b>Scenario 1: Nifty Index goes down</b>	
<b>Scheme has reversed the position before expiry of the contract</b>	

Nifty Spot	9300
Current Premium at the time of reversal	80
Premium Paid (Rs.)	50
Net Gain (Rs.80-50)	30
Total Gain on 1 lot of Nifty (Rs.) (50x30)	Rs.1500
<b>Scheme has reversed the position at expiry</b>	
Nifty Spot	9375
Premium Paid (Rs.)	50
Exercise Price	9450
Gain on Exercise	125
Total Gain Rs.(75-50)*50)	Rs.1250
<b>Scenario 2: If Nifty Index Stays over the Strike price of 9450</b>	
Say Nifty Spot	10450
<b>Net Loss to the Scheme will be premium paid</b>	Rs.2500

**Risks associated with Option Contracts:** The option contracts give a person the right but not an obligation to buy or sell. The risk is potential mispricing and exposure to options can limit the profits from a genuine investment transaction.

**Various Derivatives Strategies:**

#### 1. Index / Stock spot - Index / Stock Futures

The pricing of the futures is derived from underlying Index spot or the underlying stock. It is the cost of carry that binds the value of the futures to the underlying portfolio. When the two go out of sync, there are opportunities.

The cost of carry links the futures price to the price of the underlying asset. The price of the futures at any given instance should typically be more than the level of the spot price at that point. Theoretically, the fair value of the futures is equal to the spot price of the underlying plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk. Cash and carry trades at times provide higher than the prevailing interest rates. There is an opportunity to exploit by selling the overpriced futures and buying the underlying portfolio. It may also happen that the Index / Stock Future may be at a discount. In such cases, the Scheme may buy the future and sell the stock after borrowing the same. The Scheme shall enter into a combination of these transactions simultaneously.

If the Scheme has to unwind the positions prior to the expiry on account of redemptions or any other reason, the returns would depend on the spread between the spot and futures price at which the position is unwound. If the price differential between the spot and futures position of the subsequent month maturity is attractive near the expiry date, then the scheme may rollover the futures position and continue with the position in the spot market. The Scheme shall endeavour to deploy its assets through transactions in the above pattern, which may involve Index Futures with Stock Futures or Futures of the same stock with different expiry months.

#### 2. Cash Futures Arbitrage Strategy

The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread.

Buying the stock in cash market and selling the futures results in a hedge where the fund portfolio has locked in a spread and is not affected by the price movements in the spot and futures markets. The arbitrage position can be continued till expiry of the futures contracts. The futures contracts are settled based on the last half an hour's weighted average trade of the cash market. There is a convergence between the cash market and the futures market on expiry and this convergence results in the portfolio being able to generate the arbitrage return locked in earlier. However, the position may even be closed earlier in the event of the price differential being realized before expiry or better opportunities being available in other stocks / indexes. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of capital.

**Illustration of a Cash Futures Arbitrage Strategy: -**

**Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.**

##### 1. Market goes up and the price on the expiry day is Rs 2000.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 2000

Gain on stock is 100\*(2000-1000) = Rs 100,000

Loss on futures is 100\*(1100-2000) = Rs - 90,000

Net gain is 100,000 - 90,000 = Rs 10,000

##### 2. Market goes down and the price on the expiry day is Rs 500.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 500

Loss on stock is  $100 \times (500 - 1000) = \text{Rs } -50,000$

Gain on futures is  $100 \times (1100 - 500) = \text{Rs } 60,000$

Net gain is  $60,000 - 50,000 = \text{Rs } 10,000$

#### Unwinding the position:

**Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.**

The market goes up and at some point of time during the month (before expiry) the stock trades at Rs 1200 and the futures trades at Rs 1190 then

Fund Manager will unwind the position:

Buy back the futures at Rs 1190: loss incurred is  $(1100 - 1190) \times 100 = \text{Rs } -9,000$

Sell the stock at Rs 1200: gain realized:  $(1200 - 1000) \times 100 = \text{Rs } 20,000$

Net gain is  $20,000 - 9,000 = \text{Rs } 11,000$

#### Rolling over the futures:

The Scheme may continue to stay invested in the stock in the Cash market. Close to expiry, if the stock's price is at Rs 1500 then the stock's futures is close to Rs 1500 as well. Also if the price of the current month stock futures is below the current price of the next month stock futures, the scheme may roll over the futures position to the next expiry:

The price of the stock futures next month contract is at Rs 1510

The price of the stock futures current month contract is at Rs 1500

Then sell the futures next month contract at Rs 1510 and buy back current month futures contract at Rs 1500 = gain of  $100 \times (1510 - 1500) = \text{Rs } 9,000$  and the arbitrage position is rolled over.

### 3. Use of derivative for other Arbitrage Opportunities

#### a. Dividend distribution cum capital withdrawal Arbitrage

At the time of declaration of income distribution cum capital withdrawal, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the income distribution cum capital withdrawal amount when the stock becomes ex-income distribution cum capital withdrawal.

#### b. Buy-Back / Open Offer Arbitrage

When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

#### c. Weighted average price of futures on expiry.

The fund manager will aim at liquidating the cash market position in the last half an hour on expiry day at a rate that will be closed to weighted price in the spot market. However, the extreme volatility in last half an hour may affect the price and accordingly affect the return. Accordingly, fund will aim at taking exposure to those stocks where the bid and ask spread is minimum.

#### d. Reverse cash and carry arbitrage

If permitted by SEBI, the scheme may enter into reverse cash and carry arbitrage. This will involve borrowing stock for a defined period from a recognized counter-party and selling it in the market while simultaneously taking a long position in the stock futures. The above trade will be remunerative in scenarios where the stock/ index futures are trading at a discount to the underlying cash market. Once the discount narrows or converts to a premium, the position is unwound by buying back the stock/index and squaring off the futures transaction. The purchased stock/ index is returned to the lender as per the agreed terms.

The scheme may use fixed income derivative instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time and as may be permitted under the SEBI (Mutual Funds) Regulations.

**Interest Rate Swaps (IRS):** An Interest Rate Swap is an agreement whereby two parties agree to exchange periodic interest payments. The amount of interest payments exchanged is based on some predetermined principal, called notional principal amount. The amount each counterparty pays to the other upon periodic interest rate multiplied by the notional principal amount. The only amount that is exchanged between the parties is the interest payment, not the notional principal amount.

#### Example: Use of IRS

The Plans of the fund are reasonably invested, and the view of the fund manager is interest rates are expected to move up due to certain negative events which have occurred. In such cases the plans can enter into a paid position (IRS) where the plans will pay a fixed rate for a specified maturity and receive the floating rate of interest. This is illustrated below:

#### Example A: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is bearish and call rates are likely to spurt over the next three months. The fund manager would therefore prefer to pay fixed rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days floating interest rate from overnight fixed rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days
4. Fixed Rate: 9.90%
5. At the end of 91 days;
6. The Scheme pays: fixed rates for 91 days is 9.90%
7. TMF receives: compounded call rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives  $\text{Rs. } 2,00,00,000 \times 0.35\% \times 91 / 365 = 17,452$ . The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

In view of the fund manager interest rates are expected to move down due to certain positive events which have occurred. In such cases the scheme can enter into a received position (IRS) where the scheme will receive a fixed rate for a specified maturity and pay the floating rate of interest. This is illustrated below:

#### Example B: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is soft and call rates are unlikely to spurt over the next three months. The fund manager would therefore prefer to receive a higher rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days fixed interest rate from overnight floating rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days
4. Fixed Rate: 10.25%
5. At the end of 91 days;
6. The Scheme pays: compounded call rates for 91 days is 9.90%
7. TMF receives: Fixed rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives  $\text{Rs. } 2,00,00,000 \times 0.35\% \times 91 / 365 = 17,452$ . The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

#### Risks associated with Swaps:

Interest rate risk is significant because interest rates do not always move as expected. Both parties have interest rate risk. The holder of the fixed rate risks the floating interest rate going higher, thereby losing interest that it would have otherwise received. The holder of the floating rate risks interest rates going lower, which results in a loss of cash flow since the fixed rate holder still has to make streams of payments to the counterparty.

The other main risk associated with swaps is counterparty risk. This is the risk that the counterparty to a swap will default and be unable to meet its obligations under the terms of the swap agreement. If the holder of the floating rate is unable to make payments under the swap agreement, the holder of the fixed rate has credit exposure to changes in the interest rate agreement. This is the risk the holder of the fixed rate was seeking to avoid.

#### Forward Rate Agreements (FRA):

This is an agreement between two counterparties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date based on the notional amount, for an agreed period. In short, in a FRA, interest rate is fixed now for a future period.

#### This is illustrated below:

Assume that on September 1, 2023, the 30-day commercial paper (CP) rate is 7.75% and the Scheme has an investment in a CP of face value Rs. 50 crores, which is going to mature on September 30, 2023. If the interest rates are likely to remain stable or decline after September 30, 2023, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month, does not want to take the risk of interest rates going down, he can then enter into a following forward rate agreement (FRA) say as on September 30, 2023:

He can receive 1 X 2 FRA on September 30, 2023 at 7.75% (FRA rate for 1-month lending in 2 months' time) on the notional amount of Rs. 50 crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. September 30, 2023 falls to 7.50%, then the Scheme receives the difference  $7.75 - 7.50$  i.e. 25 basis points on the notional amount Rs. 50 crores for 1 month. The maturity proceeds are then reinvested at

say 7.50% (close to the benchmark). The scheme, however, would have locked in the rate prevailing on September 30, 2023 (7.75%) as it would have received 25 basis points more as settlement amount from FRA. Thus, the fund manager can use FRA to mitigate the reinvestment risk.

In this example, if the rates move up by 25 basis points to 8% on the settlement date (September 30, 2023), the Scheme loses 25 basis points but since the reinvestment will then happen at 8%, effective returns for the Scheme is unchanged at 7.75%, which is the prevailing rate on September 30, 2023.

#### Risks associated with Forward Rate Contracts:

When entering into an FRA, both parties to the contract entail credit risk exposure. The additional risks could be on account of lack of opportunity, illiquidity.

#### Interest Rate Future (IRF)

An interest rate future is a contract (future contract) with an interest-bearing instrument as the underlying asset. Interest rate futures are used when there is an expectation of interest rate movement in adverse direction.

For example, if fund manager expects rise in interest rate. He may sell interest rate future today. If interest rates rise in the future, the value of the future will fall (as it is linked to the underlying asset, bond prices), and hence a profit can be made when closing out of the future (i.e. buying the future). However, in case interest rate falls, loss may be incurred on IRF position.

#### Illustration of Use of IRF (For Hedging)

##### A – Perfect Hedge

- 1) Assume a portfolio has 100 crores of Government security 7.59% GOI 2026 with face value Rs. 100/. The bond is currently trading in market at 105.00.
- 2) The futures on 7.59% GOI 2026, expiring on 26<sup>th</sup> October 2023 is trading on exchange at 105.10.
- 3) Instead of exiting the cash position, the fund manager can decide to hedge the position by selling the same quantity in futures. Since one contract of IRF has a notional of 2 lacs, in this example the fund manager sells 100 crs/2 lakhs = 5000 contracts, to hedge long position.
- 4) At maturity, the settlement price of the futures will be almost same as closing price of the underlying security.

##### At maturity of the Interest Rate Futures

Case 1: At expiry Bonds close higher than the price at which fund manager hedged the position, but below the futures price at which he hedged

Closing price of Bonds on day of maturity of futures = 105.05

Settlement price of futures = 105.05

MTM gain on the underlying bond =  $(105.05 - 105.00) \times 100 \text{ crs} / 100$  (i.e. face value of bond) = Rs. 5,00,000

The profit on the futures leg is =  $5000 \times 2 \text{ lacs} \times (105.10 - 105.05) / 100$  (i.e. face value of bond) = Rs 5,00,000

Overall profit to the fund = Rs 10,00,000

Case 2: At maturity bonds close higher than the level at which futures were sold

In case, the closing price of bonds on the day of maturity of futures = 105.20,

Settlement price of futures = 105.20

The MTM gain on underlying bond =  $(105.20 - 105.00) \times 100 \text{ crs} / 100$  (i.e. face value of bond) = Rs. 20,00,000

Loss on futures leg is =  $5000 \times 2 \text{ lacs} \times (105.10 - 105.20) / 100$  (i.e. face value of bond) = - Rs 10,00,000

Total Profit to the fund = Rs 10,00,000

As can be seen above, by selling the future contract instead of the underlying, the fund manager has locked in the Rs. 10, 00,000 profit and at the same time cash holding position will be hedged against the adverse market movements.

The scheme may use fixed income derivative instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time and as may be permitted under the SEBI (Mutual Funds) Regulations.

For detailed derivative strategies, kindly refer SAI.

#### Portfolio Turnover Policy:

"Portfolio Turnover" is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme's portfolio during the given period of time. As the scheme is an open ended equity scheme, it is expected that there would be a number of subscriptions and repurchase on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would not significantly affect the brokerage and transaction costs. The Scheme will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived thereof. A high portfolio turnover rate is

not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips/securities held in the portfolio rather than an indication of a change in Scheme view on a scrip, etc.

#### PLANS AND OPTIONS

##### Direct Plan (For applications not routed through Distributors)

**Default Plan:** Investors are requested to note the following scenarios for the applicability of "Direct Plan (application not routed through distributor) or Regular Plan (application routed through distributor)" for valid applications received under the plan of the scheme:

Scenario	Broker Code mentioned by the investor	Plan mentioned by the investor	Default Plan to be captured
1	Not mentioned	Not mentioned	Direct Plan
2	Not mentioned	Direct Plan	Direct Plan
3	Not mentioned	Regular Plan	Direct Plan
4	Mentioned	Direct Plan	Direct Plan
5	Direct Plan	Not Mentioned	Direct Plan
6	Direct Plan	Regular Plan	Direct Plan
7	Mentioned	Regular Plan	Regular Plan
8	Mentioned	Not Mentioned	Regular Plan

In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. The AMC shall contact and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/ distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load.

##### Regular Plan (For applications routed through Distributors)

The scheme has following options:

- Growth Option
- Income Distribution cum capital Withdrawal Option

##### Direct Plan (For applications not routed through Distributors)

The scheme has following options :

- Growth Option
- Income Distribution cum capital Withdrawal Option (IDCW)

Income Distribution cum Withdrawal Option has sub-options of :

- Payout of Income Distribution Cum Capital Withdrawal Option (IDCW-Payout)
- Reinvestment of Income Distribution cum capital withdrawal option (IDCW- Reinvestment)

Investor shall note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account and which can be used to pay income distribution cum capital withdrawal. Hence income distribution cum capital withdrawal amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

Please note that the income distribution cum capital withdrawal amount shall be distributed at the discretion of the Trustees subject to availability of distributable surplus.

**Default Option:** Investor should appropriately tick the 'option' (Income Distribution cum Withdrawal or growth) and sub-options in the application form while investing in the scheme. If no option is mentioned / indicated in the application form by the investor then the units will, by default, be allotted under the Direct Plan- Growth Option of the scheme. If no Income Distribution cum Withdrawal Option sub-option is mentioned / indicated in the application form by the investor then the units will, by default, be allotted under the Reinvestment of Income Distribution cum capital withdrawal option.

#### APPLICABLE NAV (after the scheme opens for subscriptions and redemptions)

##### Applicable NAV for Subscription / Switch-in: Cut Off Timing 3.00 pm

Particulars	Applicable NAV
Valid applications received (time-stamped) upto 3.00 p.m. and where the funds for the entire amount are available for utilization before the cut-off time i.e. credited to the bank account of the scheme before the cut-off time.	The closing NAV of the same day.
Valid applications received (time-stamped) after 3.00 p.m. and where the funds for the entire amount are credited to the bank account of the scheme either on the same day or before the cut-off time of the next Business Day i.e. available for utilization before the cut-off time of the next Business Day.	The closing NAV of the next Business Day.

Particulars	Applicable NAV
Valid applications received (time-stamped) upto 3.00 p.m. and where the funds for the entire amount are credited to the bank account of the scheme after the cut-off time on the same day i.e. available for utilization after the cut-off time of the Day.	The closing NAV of the next Business Day.
Where the application is time stamped any day before the credit of the funds to the scheme but the funds for the entire amount are credited to the bank account of the scheme before the cut-off time on any subsequent Business Day i.e. available for utilization before the cut-off time on such subsequent Business Day.	The closing NAV of such subsequent Business Day on which funds are available for utilisation.

Realisation of funds means funds available to the AMC Scheme Account and not date and time of debit from Investor's account.

In case application is time stamped after cut off timing on any day, the same will be considered as deemed to be received on the next business day.

In case funds are realised after cut-off timing on any day, the same will be considered as deemed to be realised / available for utilisation on the next business day.

For Switch-ins including Systematic Investment Plan (SIP), Systematic Transfer Plan (STP) of any amount:

For determining the applicable NAV, the following shall be ensured:

- Application for switch-in is received before the applicable cut-off time.
- Funds for the entire amount of subscription / purchase as per the switch-in request are credited to the bank account of the Scheme before the cut-off time, and the funds are available for utilization before the cut-off time.
- In case of switch/STP transactions, funds will be made available for utilization in the switch-in- scheme based on the redemption payout cycle of the switch out

**Scheme Redemption /Switch Out:** In respect of application received upto 3 p.m., closing NAV of the day of receipt of application shall be applicable and in respect of application received after 3 p.m. closing NAV of next business day.

Outstation cheques/demand drafts will not be accepted.

**Valid application for "switch out" shall be treated as redemption and for "switch in" shall be treated as purchases and the relevant NAV of "Switch in" and "Switch Out" shall be applicable accordingly.**

#### MINIMUM APPLICATION AMOUNT / NUMBER OF UNITS UNDER EACH PLAN

**Regular Plan (For applications routed through Distributors) & Direct Plan(For applications not routed through Distributors):**

**Minimum amount for Purchase/Switch in:**

Minimum initial investment in the scheme / plan / option: Rs. 5,000/- and in multiples of Re. 1/- thereafter.

**Minimum application amount for SIP**

Rs 100 and in multiples of Re 1/- thereafter

Minimum application amount for SIP: Rs 100 and in multiples of Re 1/- thereafter

Minimum Additional Purchase Amount: Rs.1000/-& in multiples of Re.1/-thereafter. The additional purchase investment can be made in Growth or IDCW option if initial investments exist under the requested option either in Direct or in Regular plan of the scheme

Minimum Redemption/switch out amount: Rs.500 or 50 units or folio balance whichever is lower.

**There is no minimum amount requirement, in case of investors opting to switch "all units" from any existing schemes of Tata Mutual Fund to this Scheme**

#### DESPATCH OF REDEMPTION REQUEST

The redemption proceeds will be dispatched to the unit holders within three working days from the date of redemption or repurchase, subject to exceptional circumstances as mentioned further in Scheme Information Document.

#### BENCHMARK INDEX

Nifty Pharma Index TRI

#### DIVIDEND POLICY

**Growth Option :**

The income / profits received / earned would be accumulated by the Fund as capital accretion, aimed at achieving medium to long term and also short term capital growth as reflected in the NAV.

#### Payout of Income Distribution cum capital withdrawal option

The profits received / earned and so retained and reinvested may be distributed as income to the unitholders who hold the units on the record date of declaration of the income distribution cum capital withdrawal at appropriate rates (after providing for all relevant ongoing expenses, etc.) and at appropriate intervals as mentioned in this scheme information document or as may be decided by the AMC and/or Trustee Company. The Trustee Company reserves the right to change the frequency for income distribution cum capital withdrawal at its discretion. Guided by the philosophy of value-oriented returns, the intent being to protect the Net Asset Value of the Scheme and Unitholders' interests.

#### Compulsory Reinvestment of Income Distribution cum capital withdrawal option

In order to reduce the expenses of the scheme and also for the convenience of the investors, in case of income distribution cum capital withdrawal (IDCW) payout amount is Rs 100/- or less, then the same shall be compulsorily reinvested in the same sub- option at ex-dividend NAV for unitholders of non-electronic mode. Where the option to payout of IDCW is available in electronic mode, the IDCW amount shall be paid to the Unit holders.

#### NAME OF THE FUND MANAGER

Meeta Shetty (Managing Since 09-03-21 (Assistant Fund Manager from 09-Nov-2018 to 08-March- 2021) and overall experience of 18 years) & Rajat Srivastava (Assistant Fund manager : Managing Since 16-09-24).

#### NAME OF THE TRUSTEE COMPANY

Tata Trustee Company Private Limited

#### PERFORMANCE OF THE SCHEME

##### Scheme Performance as on 31.03.2025

Compounded Annualised Returns	Scheme Returns Direct - Growth%	Scheme Returns Regular - Growth%	Benchmark Returns %
Returns for last 1 year	15.85	14.13	12.01
Returns for last 3 years	20.33	18.55	16.80
Returns for last 5 years	28.13	26.23	25.01
Returns Since Inception	13.82	12.03	7.02

##### Absolute Returns for the Last 5 Financial Years

Absolute Returns	Scheme Returns Direct - Growth%	Scheme Returns Regular - Growth%	Benchmark Returns %
2024-2025	15.98	14.27	12.01
2023-2024	59.93	57.89	59.32
2022-2023	-6.14	-7.60	-10.79
2021-2022	18.45	16.66	11.43
2020-2021	67.36	64.89	71.86

**Past performance of the scheme may or may not be sustained in future.**

#### ADDITIONAL SCHEME RELATED DISCLOSURES

- Scheme's portfolio holdings (top 10 holdings by issuer and fund allocation towards various sectors to be provided through a functional website link - <https://www.tatamutualfund.com/statutory-disclosures/other-statutory-disclosures>)
- Disclosure of name and exposure to Top 7 issuers, stocks, groups and sectors as a percentage of NAV of the scheme in case of debt and equity ETFs/index funds through a functional website link - <https://www.tatamutualfund.com/statutory-disclosures/other-statutory-disclosures>)
- Portfolio Turnover Ratio: 0.12 Times as on 31st March, 2025 (for 13 months).

## EXPENSES OF THE SCHEME

### Load Structure

#### Continuous Offer

#### Entry Load:

Not Applicable (Pursuant to provision no. 10.4.1.a of SEBI Master Circular on Mutual Fund dated June 27, 2024, no entry load will be charged by the Scheme to the investor)

**Exit Load:** 0.25% of NAV if redeemed on or before expiry of 30 days from the date of allotment.

Pursuant to AMFI's communication dated 09th April 2025, Exit Load will not be charged on any Switch/Systematic transfer transaction from Regular plan to Direct plan of the same scheme w.e.f. 23rd April 2025.

Taxes (such as Capital Gain tax, STT, etc.) would be applicable for switch transaction (switch with/without exit load) as per the prevailing Income Tax Laws. Kindly refer Taxation section for further details.

#### Slab wise break up depending on the assets under management:

As per provision no. 52.6.c of SEBI (Mutual Funds) Regulations, 1996 the total expense ratio of open-ended scheme shall not exceed the following limits. The AMC has estimated that upto 2.25 % (excluding additional permissible limits as per Regulation 52(6A)(b) & 52(6A)(c)) of the daily average net assets of the scheme will be charged to the scheme as expenses.

Assets under management Slab (In Rs. crore)	Total expense ratio limits for equity-oriented schemes	Total expense ratio limits for other than equity-oriented schemes
On the first Rs.500 crores of the daily net assets	2.25%	2.00%
On the next Rs.250 crores of the daily net assets	2.00%	1.75%
On the next Rs.1,250 crores of the daily net assets	1.75%	1.50%
On the next Rs.3,000 crores of the daily net assets	1.60%	1.35%
On the next Rs.5,000 crores of the daily net assets	1.50%	1.25%
On the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof.	
On balance of the assets	1.05%	0.80%

For the actual current expenses being charged, the investor should refer to functional Weblink: <https://www.tatamutualfund.com/expense-ratio/total-expense-ratio>.

#### Annual Recurring expenses

Actual Expenses % to daily net assets for the F.Y. 2024-2025		
Tata India Pharma & Healthcare Fund	Direct Plan	Regular Plan
	0.59%	2.08%

The maximum limit of recurring expenses that can be charged to the Scheme would be as per Regulation 52 of the SEBI (MF) Regulation, 1996. Investors are requested to read "Section-Annual Scheme Recurring Expenses" in the SID.

## TAX TREATMENT FOR THE INVESTORS (UNITHOLDERS)

**Investor will be advised to refer to the details in the Statement of Additional Information and also independently refer to his tax advisor.**

## DAILY NET ASSET VALUE (NAV) PUBLICATION

The NAVs will be calculated and disclosed on every Business Day. The AMC will prominently disclose the NAVs under a separate head on the website of the Fund ([www.tatamutualfund.com](http://www.tatamutualfund.com)) and of the Association of Mutual Funds in India-AMFI ([www.amfiindia.com](http://www.amfiindia.com)) by 11 P.M. on every business day<sup>^</sup>.

However, due to inability in capturing same day valuation of underlying investments, the NAV shall be disclosed by 11 P.M. of the next business day<sup>^</sup>.

<sup>^</sup> If the NAVs are not available before the commencement of Business Hours on the following day (i.e., next day after the respective business day) due to any reason, the Mutual Fund shall issue a press release giving reasons for the delay and explain by when the Mutual Fund would be able to publish the NAV.

In case NAV of Corporate Debt Market Development Fund ("CDMDF") units is not available by 9:30 p.m. of same Business Day, NAV declaration timing for Mutual Fund Schemes holding units of CDMDF shall be 10 a.m. on next business day instead of 11 p.m. on same Business Day.

## UNITHOLDERS' INFORMATION

### Account Statement:

On acceptance of application for financial transaction, a confirmation specifying the number of Units allotted/redeemed will be sent by way of e-mail and/or SMS to the applicant's registered e-mail address and/or mobile number within five business days from the date of transaction.

Tata Mutual Fund shall send first account statement for a new folio separately with all details registered in the folio by way of a physical account statement and/or an e-mail to the investor's registered address/email address not later than five business days from the date of subscription.

Tata Mutual Fund will send the Consolidated Account Statement (CAS) to investors as follows:

1. A single Consolidated Account Statement (CAS) on basis of PAN (PAN of the first holder & pattern of holding, in case of multiple holding) will be dispatched to unitholders having Mutual Fund investments & holding Demat accounts by Depositories as per the specified timeline specified by board at the end of the month in which transaction (the word 'transaction' shall include all financial transactions in demat accounts/Mutual Fund folios of the investor) takes place.
2. The CAS will not be received by the investors for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. Such investors will get monthly account statement from Tata Mutual Fund in respect of transactions carried out in the schemes of Tata Mutual Fund during the month on or within fifteenth day of the succeeding month.
3. In other cases i.e. where unitholders having no Demat account & only MF units holding, Tata Mutual Fund shall continue to send the CAS as is being send on or within fifteenth day of the succeeding month in which financial transaction takes place.
4. In case statements are presently being dispatched by e-mail either by the Fund or the Depository then CAS will be sent through email. However the Unitholders have an option to receive CAS in physical form at the address registered in the Depository system.
5. The dispatch of CAS by Depositories to Unitholders would constitute compliance by Tata Asset Management Private Limited / the Fund with the requirements under Regulation 36(4) of SEBI (Mutual Funds) Regulations 1996.
6. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.
7. In case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all schemes of all mutual funds, shall be emailed on half yearly basis, as per the specified timeline specified by board of succeeding month, unless a specific request is made to receive the same in physical form.
8. Half-yearly CAS shall be issued to all Mutual Fund investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period on or within twenty first day of the succeeding month. Further, CAS issued for the half-year(September/ March) shall also provide:
  - a. The amount of actual commission paid by Tata AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each mutual fund scheme. The term "commission" here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by Tata AMC/MF to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.

- b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.

For further details, refer SAI.

**Portfolio Disclosure:**

Tata Mutual Fund will disclose portfolio (along with ISIN) in user friendly and downloadable spreadsheet format, as on the last day of the month/half year for all their schemes on its website [www.tatamutualfund.com](http://www.tatamutualfund.com) and on the website of AMFI [www.amfiindia.com](http://www.amfiindia.com) within 10 days from the close of each month/half year. Disclosure of risk-o-meter of scheme, benchmark and portfolio details to the investors will be disclosed as mandated by provision no. 5.16 & 5.17 of SEBI Master Circular on Mutual Fund dated June 27, 2024.

In addition to monthly portfolio Tata Mutual Fund shall also disclose fortnight portfolio for debt scheme within 5 days of every fortnight as per provision no. 5.1 of SEBI Master circular on Mutual Fund dated June 27, 2024.

In case of unitholders whose email addresses are registered, Tata Mutual Fund will send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month /half year respectively.

Tata Mutual Fund will publish an advertisement every half-year, in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the half yearly statement of the schemes portfolio on the AMC's website [www.tatamutualfund.com](http://www.tatamutualfund.com) and on the website of AMFI ([www.amfiindia.com](http://www.amfiindia.com)). Tata Mutual Fund will provide physical copy of the statement of scheme portfolio without any cost, on specific request received from a unitholder.

For portfolio disclosure of schemes of Tata Mutual Fund, kindly visit functional Weblink: <https://www.tatamutualfund.com/schemes-related>

**Unaudited Financial Results:**

Tata Mutual Fund/ Tata Asset Management Pvt Ltd shall within one month from the close of each half year, that is on 31st March & on 30th September, host a soft copy of its unaudited financial results on its website in the format specified in Twelfth Schedule of SEBI (Mutual Funds) Regulations 1996.

Tata Mutual Fund / Tata Asset Management Pvt Ltd shall publish an advertisement disclosing the hosting of such financial results on their website, in atleast one English daily newspaper having nationwide circulation & in a newspaper having wide circulation published in the language of the region where the Head Office of the fund is situated in the format specified in Twelfth Schedule of SEBI (Mutual Funds) Regulations 1996.

**Annual Report**

Annual report or Abridged Summary, in the format prescribed by SEBI, will be hosted on AMC's website [www.tatamutualfund.com](http://www.tatamutualfund.com) and on the website of AMFI [www.amfiindia.com](http://www.amfiindia.com).

The scheme wise annual report or an abridged summary thereof, in the format prescribed, shall be sent by way of e-mail to the investor's registered e-mail address not later than four months from the date of closure of the relevant accounts year.

Investors who have not registered their email id, will have an option of receiving a physical copy of the Annual Report or Abridged Summary thereof.

Tata Mutual Fund will provide a physical copy of the abridged summary of the Annual Report, without charging any cost, on specific request received from a unitholder. Physical copies of the report will also be available to the unitholders at the registered offices at all times.

Tata Mutual Fund will publish an advertisement every year, in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the scheme wise annual report on the AMC website ([www.tatamutualfund.com](http://www.tatamutualfund.com)) and on the website of AMFI ([www.amfiindia.com](http://www.amfiindia.com)).
