# FUND OVERVIEW

Large cap companies have stable earnings expectations and are expected to possess greater capability to handle downturns in the economy. Large cap stocks generally are less volatile and provide stability to the portfolio of investors.

Tata Large Cap Fund is a large cap biased Fund which focuses on investing in fundamentally strong and undervalued large cap companies. The Fund adopts a mix of top down and bottom up approach to stock picking with a bias towards bottom up approach.

# **APPROACH**

- > The fund follows an elimination approach keeping in mind benchmark allocation. A company's financial strength, future growth expectation and valuation are key criteria for selection.
- > Portfolio focusses on buckets of compounders as well as rerating candidates In large cap space, there is going to be higher proportion of compounders as most of these companies are well discovered in terms of business understanding and valuation.
- > The fund is sector agnostic, hence every business is evaluated on the basis of our investing criteria.
