INVESTMENT OBJECTIVE

The investment objective of the Scheme is to seek to provide returns that are in line with returns provided by Tata Gold Exchange Traded Fund. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved.

ASSET ALLOCATION PATTERN OF THE SCHEME

Under normal circumstances, the asset allocation of the Scheme will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of Tata Gold Exchange Traded Fund	95	100
Debt & Money Market Instruments including units of Mutual Funds *	0	5

* The scheme may invest in units of liquid / money market / debt mutual fund schemes of Tata Mutual Fund or in the Scheme(s) of other mutual funds in conformity with the investment objective / asset allocation of the Scheme. Debt Instruments like Government Securities, Corporate Bonds, Commercial Paper (CP), Certificate of Deposit (CD) and other Money Market Instruments as specified by the Reserve Bank of India / SEBI from time to time.

The cumulative gross exposure through Tata Gold Exchange Traded Fund, debt & money market instruments including units of Mutual Funds should not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash equivalent means Government Securities, TBills & Repo on Government Securities.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide provision no. 12.16 & 4.5.2 of SEBI Master Circular on Mutual Fund dated June 27, 2024, as may be amended from time to time.

The Scheme will not invest in the following:

1. Unlisted debt instrument,
2. Bespoke or complex debt products / securities,
3. Securities with special features,
4. Inter scheme transactions,
5. Short selling,
6. Unrated debt and money market instruments (except G-Secs, T-Bills and other money market instruments)
7. Debt Derivatives.

The Scheme will not invest in Credit Default Swap transactions	Provision no. 12.3 Provision no. 12.18 Provision no. 12.28

As per clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations 1996, the scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

Change in Investment Pattern The Fund Manager, with the intention to protect the interests of the unit holders may change the investment pattern for short term and defensive considerations. (reference 1.14.1.2 of SEBI Master Circular on Mutual Fund dated June 27, 2024). In case of deviation due to passive breaches, the AMC will achieve a normal asset allocation pattern in a maximum period of 30 business days. In case deviation in investment pattern is not rebalanced within the period indicated above then justification in writing for such delay including details of efforts undertaken to rebalance of portfolio shall be placed before the investment committee. The Investment Committee, if so desires, can extend the timelines upto sixty (60) business days from the date of mandated completion of rebalancing period.

In case the portfolio of schemes is not rebalanced within the aforementioned mandated plus extended timelines, AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting the scheme.

INVESTMENT STRATEGY

The investment objective of the scheme is to seek to provide returns that are in line with returns provided by Tata Gold Exchange Traded Fund by investing in units of Tata Gold Exchange Traded Fund. Accordingly, the Scheme may buy/sell the units of Tata Gold Exchange Traded Fund either directly with the Fund or through the secondary market on the Stock Exchange(s).

The scheme would also invest in debt & other money market securities to the extent necessary to meet the liquidity requirements for the purpose of repurchases or redemptions.

Overview of the underlying fund where the Scheme will invest:

Tata Gold Exchange Traded Fund

Investment Objective

The investment objective of the fund is to generate returns that are in line with the performance of physical gold in domestic prices, subject to tracking error. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved.

Asset Allocation

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Gold (Includes Physical Gold and other Gold related instruments as permitted by SEBI from time to time) #	95	100
Debt & Money Market Instruments including units of Mutual Funds ^	0	5

As per provision no. 3.2.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024, gold related instruments are such instruments having gold as underlying including but not limited Gold Deposit Scheme (GDS) / Gold Monetisation Scheme (GMS), 2015, Exchange Traded Commodity Derivatives (ETCDs) & other such instruments as specified by SEBI & applicable from time to time. The cumulative exposure to gold related instruments i.e. GDS of banks, GMS and ETCD having gold as the underlying shall not exceed 50% of net asset value of the scheme. However,

within the 50% limit, the investment limit for GDS of banks and GMS as part of gold related instrument shall not exceed 20% of net asset value of the scheme. The unutilized portion of the limit for GDS of banks and GMS can be utilized for ETCD having gold as the underlying.

Certificates issued in respect of investments made by GETFs in GDS of banks and GMS can be held by the mutual funds in dematerialized or physical form.

^A A small portion of the net assets will be invested in debt and money market instruments to meet the liquidity requirements of the Scheme. The scheme may invest in units of liquid / money market / debt mutual fund schemes of Tata Mutual Fund or in the Scheme(s) of other mutual funds in conformity with the investment objective/ asset allocation of the Scheme. It may be noted that the margin placed for taking exposure to ETCDs are generally lower than the ETCD exposure limit considered for the purposes of monitoring investment limits and therefore, the residual cash (i.e. ETCD exposure less placement of margin towards participation in ETCDs) are placed in cash and cash equivalents in the interest of investors. The said placement in cash and cash equivalents shall not be considered as part of the limit of 0% to 5% allocated towards Debt & Money Market Instruments including units of Mutual Funds.

The Margin may be placed in the form of such securities/instruments/deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities/instruments/deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

The cumulative gross exposure through gold, gold related instruments, debt including money market instruments, exchange traded commodities derivative positions with gold as underlying, other permitted securities/assets and such other securities/assets as may be permitted by SEBI & made applicable from time to time should not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash equivalent means Government Securities, TBills & Repo on Government Securities.

As per clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations 1996, the scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

The Scheme will not invest in

1. Securitised Debt
2. Debt Instruments with special features (AT1 and AT2 Bonds)
3. Debt instruments having Structured Obligations / Credit Enhancements.
4. Securities Lending & Borrowing, Short selling
5. Overseas securities / ADR / GDR
6. Units of REITs & InvITs
7. Repo in corporate debt securities and corporate reverse repo
8. Credit Default Swap transactions

It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the Scheme undergo changes within the permitted band as indicated above or for changes due to defensive positioning of the portfolio with a view to protect the interest of the unitholders on a temporary basis. The investors/unitholders can ascertain details of asset allocation of the Scheme as on the last date of each month on AMC's website at www.tatamutualfund.com that will display the asset allocation of the Scheme as on the given day.

Investors may note that securities, which endeavor to provide higher returns typically, display higher volatility. Accordingly, the investment portfolio of the Scheme would reflect moderate to high volatility in its Gold related investments and low to moderate volatility in its debt and money market investments.

Investment Strategy

Tata Gold Exchange Traded Fund is a passively managed fund which will employ an investment approach designed to track the performance of domestic price of Gold.

The Scheme will invest at least 95% of its total assets in the Gold or Gold related instruments. It may hold up to 5% of their total assets in debt or money market securities.

The expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying benchmark will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to the performance of the underlying benchmark.

Tracking Error

Tracking error is a measure of the difference in returns from the Scheme and the returns from the underlying benchmark. It is computed as the standard deviation of the difference between the daily returns of the underlying benchmark and the NAV of the Scheme on an annualized basis.

Tracking error could be the result of a variety of factors including but not limited to:

- Payment of scheme expenses.
- Investment in Debt and money market instruments to meet redemption / other liquidity requirements.
- Disinvestments to meet redemptions, recurring expenses etc.
- Execution of large subscription / redemption transaction.
- Levy of margins by exchanges

The investment manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The annualized standard deviation of the difference in daily returns between the underlying benchmark and the NAV of the scheme based on past one year rolling data shall not exceed 2%.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. Index in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data. However, Tracking Error of Index is likely to be low as compared to a normal index fund.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the underlying benchmark.

Details about the underlying index:

The performance of the scheme shall be benchmarked to domestic Price of Gold

The benchmark may be changed in future, if a benchmark better suited to the investment objective of the scheme is available.

Material Risks

Market risk due to volatility in gold prices (Refer Clause no. 3.2.7.1 read with Clause no. 3.3.10.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024): The value of the Units relates directly to the value of the underlying gold held by the Scheme and fluctuations in the price of gold could adversely affect the investment value of the Units. The price of gold may fluctuate due to various factors such as: -

- (i) Global gold supplies and demand, which is influenced by factors such as forward selling by gold producers, purchases made by gold producers to unwind gold hedge positions, central bank purchases and sales, and productions and cost levels in major gold producing countries such as the South Africa, the United States, Australia and China.
- (ii) Investor's expectations with respect to the rate of inflation.
- (iii) Currency exchange rates.
- (iv) Interest rates
- (v) Investment and trading activities of commodity funds/hedge funds.
- (vi) Global or regional political, economic or financial events and situations.

In addition, there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold declines, the value of investment in units in which the scheme has invested will, in general, decline proportionately.

There may be certain circumstances that may motivate large scale sales of gold which could decrease the price of gold and adversely affect an investment in the Units.

Liquidity risks (Refer Clause no. 3.2.7.1 read with Clause no. 3.3.10.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024) in physical or derivative markets impairing the ability of the fund to buy and sell Gold: Commodities tend to be more volatile than other instruments. This may have an impact on liquidity. Liquidity considerations may have a price basis risk. Liquidity risks may arise due to issues related to the supply chain which affects the availability of Gold. During an undetermined situation, similar to what happened during the pandemic, transportation all over the world had come to a standstill. Financial markets had experienced extreme volatility and severe losses, and trading in many instruments had been disrupted. Liquidity for many instruments had been greatly reduced for periods of time, and most commodities were in short supply resulting in illiquid markets for most commodities including gold. The lack of liquidity in the physical market may also arise due to seasonality of demand and supply or volatility prices. Lastly, government regulations including change in taxation or duties levied on gold may affect the demand and supply and may affect the liquidity.

The Scheme's gold may be subject to loss, damage, theft or restriction on access. There is a risk that part or all of the Scheme's gold could be lost, damaged or stolen. Access to the Scheme's gold could also be restricted by natural events (such as earthquake) or human actions (such as terrorist attack). Any of these actions may adversely affect the operations of the scheme and consequently an investment in units.

Risks associated with handling, storing and safekeeping of physical gold (Refer Clause no. 3.2.7.1 read with Clause no. 3.3.10.4 of SEBI Master Circular on Mutual Funds dated June 27, 2024): All physical gold procured must follow the LBMA (London Bullion Market Association) guidelines as per prescribed SEBI guidelines. Risk arises when part or all of the gold held by the Scheme could be lost, stolen or damaged and access to gold may be

restricted due to natural calamities or human actions, loss or damage directly or indirectly occasioned by, happening through or in consequence of war, invasion, acts of foreign enemies, hostilities (whether war be declared or not), civil war, rebellion, revolution, insurrection, military or usurped power. Loss due to aridity, humidity, exposure to light or extremes of temperature. Hence, the Custodian maintains insurance in regard to the business on terms and conditions and the custodian is also responsible for all costs arising from the insurance policies. The custodian taking delivery on behalf of the AMC needs to ensure the weight, purity, and the source of gold as specified under the LBMA guidelines.

TER of the underlying scheme i.e Tata Gold Exchange Traded Fund

The underlying fund is a new scheme.

Maximum total expense ratio (TER) permissible under Regulation 52 (6) (a) (i) is upto 1% of Daily Net Assets excluding additional expenses for gross new inflows from specified cities.

In case of Tata Gold ETF Fund of Fund scheme:

- investing in Tata Gold Exchange Traded Fund, the total expense ratio of the scheme including weighted average of the total expense ratio levied by the underlying scheme shall not exceed 1.00 per cent of the daily net assets of the scheme.
- The total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying scheme shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme, subject to the overall ceilings as stated above.

RISK PROFILE OF THE SCHEME

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Scheme Specific Risk Factors:

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and/or ability to meet its investment objective.

The specific risk factors related to the Scheme include, but are not limited to the following:

- The Scheme shall invest predominantly in Tata Gold Exchange Traded Fund (TGETF) – the underlying scheme. Hence the Scheme's performance shall primarily depend upon the performance of TGETF. Any change in the investment policies or the fundamental attributes of the underlying scheme could affect the scheme /performance of the Scheme.
- Investments by TGETF are subject to availability of Gold. If favorable investment opportunities do not exist or opportunities have notably diminished, TGETF may suspend accepting fresh subscriptions. This may also affect the acceptance of subscription by the Scheme.
- All risks associated with the underlying scheme, including performance of underlying physical gold, asset class risk, passive investment risk,

indirect taxation risk, etc., will therefore be applicable to this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying scheme.

- The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying scheme where the Scheme has invested and will not include the investments made by the underlying scheme.
- The value (price) of gold may fluctuate for several reasons and all such fluctuations will impact the NAV of Units under the Scheme. The factors that may effect the price of gold, among other things, include demand and supply for gold in India and in the global market, Indian and Foreign exchange rates, Interest rates, Inflation trends, market risks including trading risks in gold as commodity, legal restrictions on the movement/trade of gold that may be imposed by RBI, Government of India or countries that supply or purchase gold to/from India, trends and restrictions on import/export of gold in and out of India, etc.
- The Scheme assets are predominantly invested in TGETF and valued at the market price of the said units on The National Stock Exchange of India Limited (NSE). The same may be at a variance to the NAV of the underlying scheme, due to market expectations, demand/supply of the TGETF units, prevailing market conditions, etc. To that extent the performance of Scheme shall be at variance with that of the underlying scheme.
- The changes in asset allocation may result in higher transaction costs.
- When subscriptions received are not adequate enough to meet the minimum investment criteria for transacting directly with the Fund, the units of the underlying scheme may be acquired from the stock exchanges where the price quoted may be at variance with the underlying NAV, which could result in higher acquisition costs. Alternatively, the subscriptions may be deployed in Money market instruments within the limits specified under the Asset allocation pattern, which will have a different return profile compared to gold returns profile.
- Taxation: Repurchase of units of the underlying scheme or sale of units of the underlying scheme on the Stock Exchange may attract short or long term capital gain tax depending upon the acquisition cost and holding period of the Units. Moreover, converting units of the underlying scheme to Gold may also attract Wealth tax. Furthermore, Gold is subject to indirect tax not restricted to the following: Sales Tax, Octroi, VAT, Stamp Duty, and Custom Duty. Hence, any change in the rates of taxation/applicable taxes would affect the valuation of the Scheme.

Redemption Risk:

The units issued under the Scheme will derive liquidity primarily from the underlying scheme having creation/ redemption process in creation unit size of predefined quantity of physical gold (currently 1 kg). At times prevailing market conditions may affect the ability of the underlying scheme to sell gold against the redemption request received.

Furthermore, the endeavor would always be to get cash on redemptions from the underlying scheme. However, in case the underlying scheme is unable to sell for any reason, and delivers physical gold, there could be delay in payment of redemption proceeds pending such realization.

Additionally, the Scheme will derive liquidity from trading units of underlying scheme on the exchange(s) in the secondary market which may be inherently restricted by trading volumes, settlement periods and transfer procedures. As there is no active secondary market developed or maintained by the underlying scheme, the processing of redemption requests at times may be delayed.

In the event of an inordinately large number of redemption requests, or re-structuring of the Scheme's investment portfolio, the processing of redemption requests may be delayed.

Right to Limit Redemptions

The Trustee, in the interest of the Unit holders of the Scheme offered in this Scheme Information Document and keeping in view the unforeseen circumstances/unusual market conditions, may limit the total number of Units, which can be redeemed on any Business Day depending on the ability of the Scheme to sell units of the underlying scheme and / or underlying scheme able to liquidate gold against the redemption request submitted by the Unit holders of the Scheme due to prevailing market conditions. In view of the above, the Trustee has the right, in its sole discretion, to limit redemptions (including suspending redemptions) under certain circumstances, as described under 'Right to restrict redemption and/or suspend redemption of the units' in Section 'Restrictions, if any, on the right to freely retain or dispose of Units being offered'.

Risks Associated with Processing of Transaction Through Stock Exchange Mechanism

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock

exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognised stock exchange(s).

Risks associated with Debt/Money Markets Instruments

Interest Rate Risk

As with debt/money instruments, changes in interest rate may affect the price of the money market instrument(s) and ultimately Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Reinvestment Risk

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the scheme is reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.

Risks associated with Segregated Portfolio

Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. Security comprises of segregated portfolio may not realize any value. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with investing in Securities Segment and Tri-party Repo trade settlement:

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Risks associated with transaction in Units through stock exchange(s):

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

Risk associated with potential change in Tax structure:

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk mitigation strategies:

Risk Control / Mitigation measures of the Scheme:

Sr No.	Risk & Description	Risk mitigation / management strategy
1	Liquidity Risk	Focus on good quality paper at the time of portfolio construction

2	Credit Risk	In house dedicated team for credit appraisal Issuer wise exposure limit Periodical portfolio review by the investment committee
3	Interest Rate Risk	Close watch on the market events Active duration management Portfolio exposure spread over various maturities.
4	Regulatory Risk	Online monitoring of various exposure limits by the Front Office System also as a backup, manual control are implemented.

Risk Control / Mitigation measures of Underlying Scheme:

The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in gold and gold-related instruments. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Scheme has identified the following risks of investing in gold and gold-related instruments and designed risk management strategies, which are embedded in the investment process to manage such risks.

Sr No.	Risk & Description	Risk mitigation / management strategy
1	Tracking Error: The performance of the Scheme may not be commensurate with the performance of the benchmark index on any given day or over any given period, referred to as tracking error.	The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The investment manager will endeavor to maintain low cash levels to minimize tracking error.
2	Price risk: Fluctuations in the price of gold	Since the Scheme is passively managed, price risk is inherent and cannot be mitigated.
3	Liquidity risk: Inability to buy / sell appropriate quantity of gold	The Scheme has to sell gold only to designated bankers / traders who are authorized to buy gold. Though, there are adequate numbers of players to whom the Scheme can sell gold the Scheme may have to resort to distress sale of gold if there is no or low demand for gold to meet its cash needs of redemption or expenses.
4	Event risk/Custody Risk: Risk of loss, damage, theft, impurity etc. of gold	There is a risk that part or all of the physical gold belonging to the Scheme could be lost, damaged or stolen. In order to ensure safety, the said gold will be stored with custodian in its vaults. Gold held by custodian is also insured. The custodian will insure/ cover all such risks.
6	Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to maturity (YTM).	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.
7	Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.	Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.

PLANS AND OPTIONS

The Scheme has following plans across a common portfolio:

Regular Plan: This Plan is for investors who wish to route their investment through any distributor.

Direct Plan: This Plan is only for investors who purchase /subscribe units in a scheme directly with the Fund and is not available for investors who route their investments through a distributor.

Regular Plan (For applications routed through Distributors):

The scheme has following options:

- Growth Option
- Payout of Income Distribution Cum Capital Withdrawal Option
- Reinvestment of Income Distribution Cum Capital Withdrawal Option

Direct Plan (For applications not routed through Distributors)

The Scheme has following options:

- Growth Option
- Payout of Income Distribution Cum Capital Withdrawal Option
- Reinvestment of Income Distribution Cum Capital Withdrawal Option

Compulsory Reinvestment of Income Distribution cum Capital Withdrawal Option:

In order to reduce the expenses of the scheme and also for the convenience of the investors, the income distribution cum capital withdrawal shall be compulsorily reinvested (for investors of non-electronic mode) within the scheme at the applicable ex-dividend NAV if income distribution cum capital withdrawal amount is less Rs.100 in the same option of the respective plans of the scheme at the ex- dividend rate.

Investor shall note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account and which can be used to pay income distribution cum capital withdrawal. Hence, income distribution cum capital withdrawal amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

Default Option: Investor should appropriately tick the 'option' (Growth or Payout of Income Distribution Cum Capital Withdrawal Option, Reinvestment of Income Distribution Cum Capital Withdrawal Option in the application form while investing in the Scheme. If no option is mentioned / indicated in the application form by the investor then the units will, by default, be allotted under the Direct Plan- Growth Option. If no income distribution cum capital withdrawal sub-option is mentioned / indicated in the application form by the investor then the units will, by default, be allotted under the Reinvestment of Income Distribution cum capital withdrawal option.

Default Plan: Investors are requested to note the following scenarios for the applicability of "Direct Plan (application not routed through distributor) or Regular Plan (application routed through distributor)" for valid applications received under the scheme:

Scenario	Broker Code mentioned by the investor	Plan mentioned by the investor	Default Plan to be captured
1	Not mentioned	Not mentioned	Direct Plan
2	Not mentioned	Direct Plan	Direct Plan
3	Not mentioned	Regular Plan	Direct Plan
4	Mentioned	Direct Plan	Direct Plan
5	Direct Plan	Not Mentioned	Direct Plan
6	Direct Plan	Regular Plan	Direct Plan
7	Mentioned	Regular Plan	Regular Plan
8	Mentioned	Not Mentioned	Regular Plan

In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. The AMC shall contact and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/ distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load.

The redemption proceeds will be dispatched to the unit holders within three working days from the date of redemption or repurchase, subject to exceptional circumstances as mentioned further in Scheme Information Document.

BENCHMARK INDEX

Domestic Price of Gold

INCOME DISTRIBUTION CUM CAPITAL WITHDRAWAL**Growth Option:**

The income / profits received / earned would be accumulated by the Fund as capital accretion, aimed at achieving capital growth and reflected in the NAV.

The Mutual Fund will not declare any IDCWs under this option. The income earned under this Option will remain invested in the option and will be reflected in the NAV. This option is suitable for investors who are not looking for current income but who have invested with the intention of capital appreciation. Moreover, if Units under this option are held as capital asset for a period of greater than twelve months from the date of acquisition, Unit Holders will get the benefit of long-term capital gains tax.

Income Distribution cum capital withdrawal option (IDCW):

The profits received / earned and so retained and reinvested may be distributed as Income at appropriate rates (after providing for all relevant ongoing expenses, etc.) and at appropriate intervals as may be decided by the AMC and/or Trustee Company. It will be distributed to the unitholders who hold the units on the record date of declaration of the Income.

Please note that the income distribution cum capital withdrawal and its frequency is subject to availability of distributable surplus and at the discretion of the trustees.

The Fund reserves a right to modify the periodicity and manner of payout of such distribution as they deem fit without giving any further notice to unitholders.

The Fund does not assure any targeted annual return / income nor any capitalization ratio. Accumulation of earnings and / or capitalization of bonus units and the consequent determination of NAV, may be suspended temporarily or indefinitely under any of the circumstances as stated in the clause "Suspension of Ongoing Sale, repurchase or Switch out of units".

Payout IDCW:

As per the SEBI (MF) Regulations, the Mutual Fund shall dispatch IDCW proceeds to the Unit Holders within 15 days from the record date of the IDCW. IDCWs will be paid by cheque, net of taxes, as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the registered address of the sole/first holder as indicated in the original application form.

To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the Application Form. IDCW cheques will be sent to the Unit Holder after incorporating such information.

Reinvestment of Income Distribution cum capital withdrawal Option: Unitholders under this option also have the facility of reinvestment of the income so declared, if so desired. The income declared would be reinvested in the scheme on the immediately following ex-dividend date.

Compulsory Reinvestment of Income Distribution cum capital withdrawal :

In order to reduce the expenses of the scheme and also for the convenience of the investors/- ,the distribution of income shall be compulsorily reinvested(for investors of non-electronic mode) within the scheme at the applicable ex-dividend NAV if income distribution cum capital withdrawal amount is less Rs.100 in the same option of the respective plans of the scheme at the ex- dividend rate.

UNITHOLDERS' INFORMATION

Account Statement:

On acceptance of application for financial transaction, a confirmation specifying the number of Units allotted/redeemed will be sent by way of e-mail and/or SMS to the applicant's registered e-mail address and/or mobile number within five business days from the date of closure of New Fund Offer (NFO) period.

In case of continuous subscription after the NFO, Tata Mutual Fund will send account statement with all details registered in the folio by way of an e-mail and/ or SMS to the investor's registered address/email address/registered mobile number not later than five business days from the date of subscription or by way of physical statement not later than five business days from the date of receipt of request from the unitholder.

Tata Mutual Fund will send the Consolidated Account Statement (CAS) to investors as follows:

1. A single Consolidated Account Statement (CAS) on basis of PAN (PAN of the first holder & pattern of holding, in case of multiple holding) will be dispatched to unitholders having Mutual Fund investments & holding Demat accounts by Depositories at the end of the month in which transaction (the word 'transaction' shall include all financial transactions in demat accounts/Mutual Fund folios of the investor) takes place. The CAS shall be dispatched as per the timelines specified by SEBI.
2. The CAS will not be received by the investors for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. Such investors will get monthly account statement from Tata Mutual Fund in respect of transactions carried out in the schemes of Tata Mutual Fund during the month on or within fifteenth day of the succeeding month.
3. In other cases i.e. where unitholders having no Demat account & only MF units holding, Tata Mutual Fund shall continue to send the CAS as is being send on or within fifteenth day of the succeeding month in which financial transaction takes place.
4. In case statements are presently being dispatched by e-mail either by the Fund or the Depository then CAS will be sent through email. However the Unitholders have an option to receive CAS in physical form at the address registered in the Depository system.
5. The dispatch of CAS by Depositories to Unitholders would constitute compliance by Tata Asset Management Pvt Ltd / the Fund with the requirements under Regulation 36(4) of SEBI (Mutual Funds) Regulations 1996.

6. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.
7. In case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all schemes of all mutual funds, shall be emailed on half yearly basis, as per the timeline specified by SEBI, unless a specific request is made to receive the same in physical form.
8. Half-yearly CAS shall be issued to all Mutual Fund investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period on or within twenty first day of the succeeding month. Further, CAS issued for the half-year(September/ March) shall also provide:
 - a. The amount of actual commission paid by Tata AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each mutual fund scheme. The term "commission" here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by Tata AMC/MF to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
 - b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.

For further details, refer SAI.
